

MODEL TEACHER FOUND ON COAST

(By Associated Press)
LONG BEACH, Cal., Nov. 30.—Mrs. Bertha Irene Abbott, sole teacher of the South Cerritos school in an outlying section of Long Beach, is the "model" instructor of California, according to claims of local school authorities.

She sleeps in the school building to protect it from vandals. She pastures a cow on the school grounds to provide milk for the hot chocolate she serves every noon to her 61 pupils. She conducts sewing and stroy classes in addition to the curriculum provided for the school. She has established a branch of the Long Beach public library in the school. Mrs. Abbott, before coming to Long Beach, established a school at Sausalito, California, and served as its teacher for a year without pay because it was incorporated in the Los Angeles county school system. She is 23 years old.

WOULD CALL DRUG ADDICTS INSANE

(By Associated Press)
CENTRALIA, Wash., Nov. 30.—A measure to declare all drug addicts criminally insane and to treat them at the insane hospitals in the state will be introduced into the next state legislature by the Lewis county representatives. This move was decided upon at a meeting of the legislators with the Lewis County Medical association, which advocated the proposed enforced treatment of addicts.

Writes to Beethoven.

A letter addressed to the composer Beethoven was received in Vienna the other day from a woman in the provinces. She wrote she had recently heard some of his music and was anxious to place her daughter under his tuition. The postal authorities delivered the letter at the house in which Beethoven lived and where he died 92 years ago. The concierge said no such man resided there, so the postman sent it to the dead letter office.

LUMBER EMPLOYEES MUST BE CITIZENS

RAYMOND, Wash., Nov. 30.—All lumbering plants in the Willapa harbor district have decreed that alien employees must at once take steps to become American citizens. One mill released seven men who refused to declare intention to become Americans. After January 1 all employees who have not started toward citizenship will be dropped.

Early Rubber Goods Imperfect.
Many were the troubles that early manufacturers of rubber goods experienced on account of the propensity of rubber to expand or contract with the heat. Daniel Webster, who was Mr. Goodyear's counsel in his patent litigation, humorously referred to a the cloak of India rubber he once owned, stating that in cold weather it stood well by itself, and that he often set it out on the porch surmounted by his hat, many persons passing by mistaking it for the Sage of Marshfield himself.
